Executive Summary

Korkai (KOKE) is a revolutionary cryptocurrency designed to redefine the digital economy by empowering users with an integrated, blockchain-based ecosystem. With its foundation rooted in scalability, efficiency, and inclusivity, KOKE envisions becoming a key enabler across various industries, including online shopping, gaming, decentralized finance (DeFi), and more. By leveraging the Binance Smart Chain (BSC), KOKE offers low transaction costs and fast processing speeds, making it the optimal choice for global users.

Through its multi-industry integration, Korkai strives to bridge the gap between technology and real-world applications, creating opportunities for seamless transactions, rewards, and investments.

Token Overview

Token Name: **KORKAI**

Ticker: **KOKE**

Decimal: **18**

Price: **$1/KOKE** (initial)
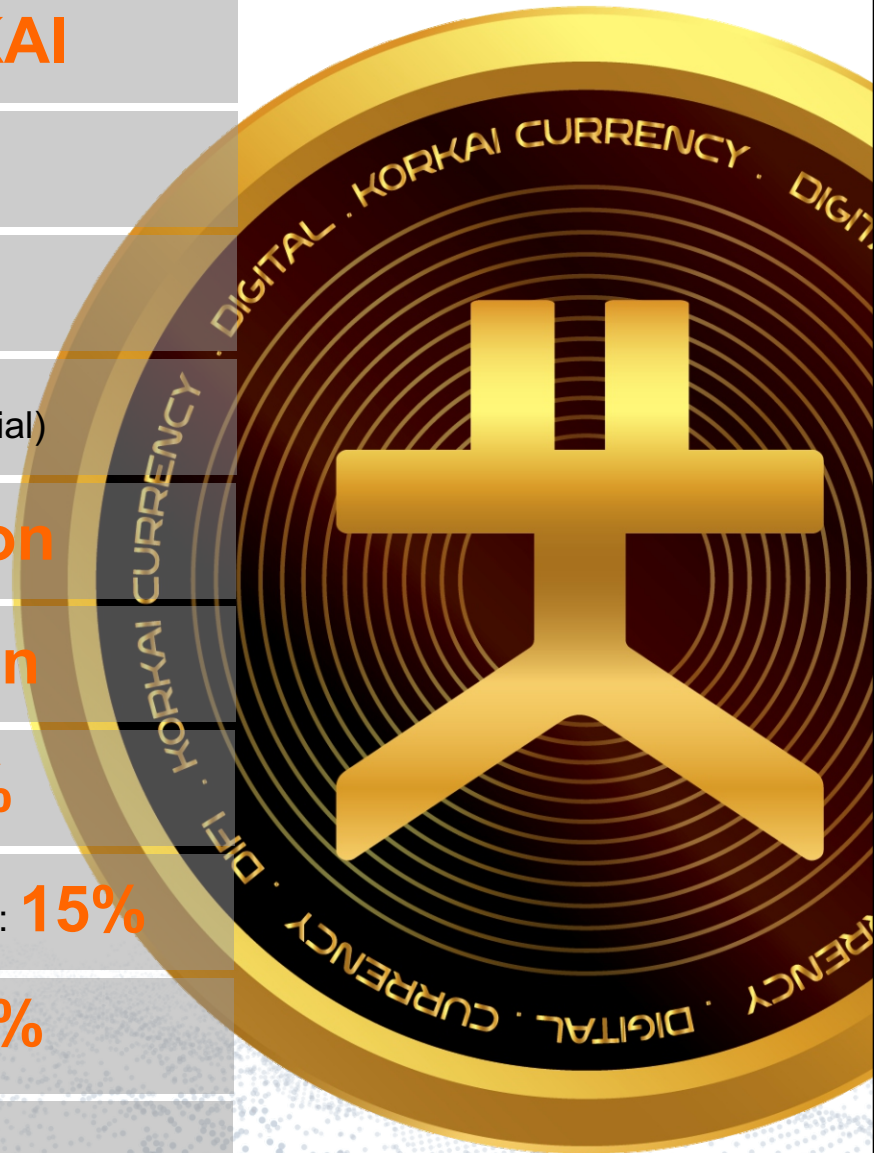

Total Supply: **10 Million**

Initial Supply: **1 Million**

Public Circulation: **80%**

Technical Management Allocation: **15%**

Pro Players Rewards: **3%**
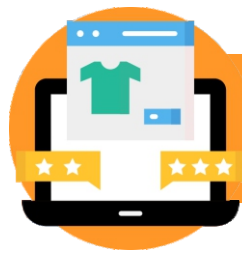

Bounty Rewards: **2%**

3. Ecosystem

The Korkai ecosystem is a holistic, interconnected network designed to enhance user engagement and utility through diverse platforms:

3.1 Online Shopping Platform
KOKE facilitates seamless and secure online purchases, providing an efficient payment solution that bridges merchants and consumers.

3.2 GameFi
Integrating blockchain technology with gaming, KOKE powers in-game rewards, enhancing the gaming experience for players while promoting monetization.

3.3 Exchange
A secure and efficient cryptocurrency exchange platform, allowing users to trade KOKE and other cryptocurrencies effortlessly.

3.4 Wallet
A decentralized wallet offering a user-friendly interface to manage assets, conduct transactions, and ensure security.

Ecosystem

3.5 DeFi Platform
KOKE supports decentralized finance activities such as lending, borrowing, and staking, making financial services more accessible to a global audience.

3.6 Utilities
KOKE tokens can be used for bill payments, e-commerce, and other essential utilities, creating a practical and diverse use case.

3.7 NFT Marketplace
Empowering creators and collectors with a dedicated platform for buying, selling, and trading non-fungible tokens (NFTs).

3.8 Sports and Forex Trading
A specialized platform offering investment opportunities in sports and forex markets.

3.9 Crypto Trading Sector
A global hub designed for cryptocurrency enthusiasts, offering advanced trading functionalities.
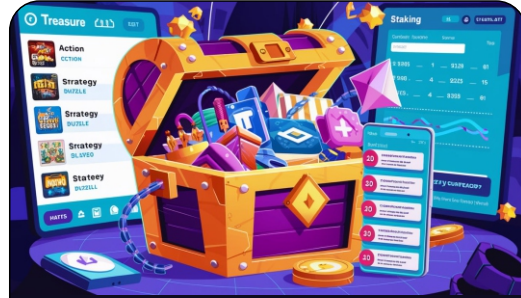

4
